About Natural Remedies

Natural Remedies is a global healthcare company with a strong focus on research-led natural products. With extensive international travel across continents and project-based budget allocations, the company faced significant operational strain in managing travel bookings and expense reimbursements.

Existing Approach

International travel led to complex and high-volume expense submissions, often delayed and overwhelming for the finance team. The organization faced multiple interlinked issues.

The Challenge

Delayed Expense Filing

Employees returned with 100+ bills from multiple countries, delaying expense submissions

Forex Advance Chaos

Last-minute forex requests and unclear surrender protocols caused major bottlenecks

Manual Reimbursements

Finance teams spent weeks entering bills manually into SAP ERP solution

Project-Based Budgeting

Trips needed to be aligned with project budgets, but no real-time check was in place

Uncontrolled Travel Bookings

Employees booked flights and hotels on their own, bypassing policy

No Preferred Supplier Rates

Despite large volumes, company lacked access to corporate fares or negotiated rates

24x7
Support

TripGain brought global structure to our chaotic travel and expense process. From bill scanning to SAP sync, forex handling to budget controls – everything works seamlessly. The savings and efficiency are truly transformational.

Gopala Rao Sadam

Deputy Manager Finance & Admin,
Natural Remedies

TripGain's Solution

OCR & Bulk Expense Uploads

Enabled employees to scan and file expenses on the go, even 100 bills at once

Mobile-Friendly Expense Filing

Real-time uploads directly from mobile during travel

SAP Integration

Expenses and scanned copies pushed directly to SAP, reducing manual entry to near zero

Forex Management Modules

Automated forex issuance, approvals, and surrender with full visibility

Budget Enforcement

Live checks against project-specific budgets before any booking

Preferred Supplier Integration

Secured Indigo and global airline corporate rates and SME fares

About TripGain

TripGain Travel & Expense Management Solutions is founded by young and energetic team with matchless combination of expertise in software and travel domains with focus on essential needs of travel industry which is on the verge of its transformation into highly sophisticated, structured and automated system.

We provide a web & mobile based Travel & Expense solution to enterprises with all travel services like Flight, Hotel, Bus, Train, Visa, Cruise etc. driven by our unique multi-vendor system. It eliminates the technology gap by providing a powerful, cost effective and easy to use platform to all stake holders involved in Travel & Expense space, be it employee, Approval manager, Finance team or CFO.
